

Ashutosh Bhagat

asbh7190@gmail.com +91 73839 34652
ashutoshbhagat.in Vadodara, Gujarat

Summary

Aspiring Data Engineer with experience in SQL, ETL pipelines, dimensional data modeling, and analytics. Alongside a strong interest in Machine Learning and NLP, I enjoy building end-to-end data solutions that transform raw data into actionable insights.

Education

Sardar Vallabhbhai Patel Institute of Technology <i>Bachelor's in Computer Science and Design (CGPA: 9.52/ 10.00)</i>	2023-Present Vasad, Gujarat
Phoenix Institute (GSHSEB) <i>12th Science (Percentage: 63)</i>	2022-2023 Vadodara, Gujarat

Experience

OutriX <i>Data Analyst</i>	Jul 2025 – Aug 2025 Virtual
- Learnt and applied core data analytics concepts hands-on during the internship. - Built an E-commerce Data Analytics project using Python, performing end-to-end analysis on real sales data.	

Projects

- SQL Data Warehouse for Sales Analytics** | *SQL, ETL, Data Warehousing, Star Schema*
- Designed a SQL-based data warehouse by ingesting CSV data through Bronze, Silver, and Gold layers using ETL and dimensional modeling.
- AyurFit - Ayurvedic Healthcare Assistant** | *Machine Learning, Sentence Transformers, FastAPI*
- Built AyurFit, a full-stack AI healthcare assistant, as a team project using NLP and a two-tier ML pipeline to map patient symptoms to personalized Ayurvedic diagnoses and herbal remedies.
- Mark's Prediction – Web App** | *Supervised Machine Learning, Linear Regression, Streamlit*
- Developed a Linear Regression model to predict student midterm scores, sourcing data from Kaggle, performing EDA using Pandas and NumPy, and deploying an interactive interface via Streamlit.
- DataLens – Govt.-Data-Visualization** | *Python (Matplotlib, Seaborn, Plotly, Pandas, Numpy)*
- Built interactive visualizations using Matplotlib, Seaborn, and Plotly across Jupyter Notebooks with Panel to present government data trends through an interactive dashboard.

Technical Skills

Languages: Python, C, JavaScript, SQL
Frontend: HTML5, Tailwind CSS, ReactJS
Databases & Tools: Microsoft SQL Server, MySQL, VS Code, Jupyter, Git, GitHub, PowerBI, Figma, Canva
Concepts: Data Warehousing, ETL/ELT, Data Modeling, Star Schema, Medallion Architecture, SQL, DBMS, Machine Learning, Data Visualization, Computer Networks

Achievements

- Completed **Code Unnati Advanced Program (SAP Edunet)**, gaining hands-on experience and a strong understanding of **Machine Learning** through real-world projects and model development.
- Earned the **Oracle Cloud Infrastructure (OCI) 2025 Certified AI Foundations Associate**, demonstrating foundational knowledge of **AI ML**, including deep learning, NLP, and generative AI.

Social Engagements

Vice-President: at The A.I.M. Club, student-run Interdisciplinary club at SVIT Vasad
Volunteering: as a Graphic Designer at AWS User Group Vadodara and People Management at GDG Vadodara
Organiser: Was Technical Head at Prakarsh '26 (Tech Fest), ISTE Committee, SVIT Vasad
Sports-Engagements: Woodball (Bronze Medalist - Nationals)
